

COREDRIVE TECHNOLOGIES LTD.

Unit 3, MIDC Taloja Phase-II, Navi Mumbai – 410208, Maharashtra | Branch: DLF Cyber City, Gurugram
GSTIN: 27AADCC8821P1ZW | CIN: L31909MH2009PLC195647 | ISO 9001:2015 | IEC 62061 Functional Safety

Revision:	Rev 0 — Initial Issue	Valid Until:	13 September 2026 (90 days)

Subject: Formal Commercial & Technical Proposal — CoreDrive CDX-22 Series Intelligent Motion Control Systems

CoreDrive Technologies is pleased to present this comprehensive proposal for the supply and lifecycle support of our CDX-22 Series Intelligent VFD Systems. The CDX-22 is the only drive in its class to achieve both IEC 62061 SIL-2 and PLd (EN ISO 13849-1) dual functional safety certification. It incorporates an integrated condition monitoring module with predictive health analytics accessible via CoreDrive's cloud portal, CoreSight™, enabling proactive maintenance scheduling.

SECTION 1 — SCOPE OF SUPPLY & PRICING SCHEDULE

#	Part No.	Description	Qty	Unit Price (■)	Total (■)
1	CDX-22-SIL2-IP66	CoreDrive CDX-22 VFD, 22kW, 415V 3-Ph AC, IP66 Enclosure (enhanced over spec), Dual SIL-2 certified STO+SS1, Integrated EMC Filter Class 3, 4-line LCD display, USB + Ethernet + RS-485 multi-port, onboard PLC with 8DI/4DO, CoreSight™ IoT module pre-installed	10	1,58,000.00	15,80,000.00
2	CDX-ACC-BYPASS-MAN	Manual Bypass Module — allows maintenance without shutting process; integrated in the drive enclosure; MCCB rated at 1.25× drive capacity	10	14,200.00	1,42,000.00
3	CDX-COMM-EIP	EtherNet/IP + PROFINET Dual-Protocol Comm Card (simultaneous support); enables integration with both Rockwell and Siemens PLCs without gateway	10	9,800.00	98,000.00
4	CDX-SVC-PLAT-PLUS	Platinum Commissioning & Validation Package — includes FAT at Navi Mumbai facility with NABL-accredited test reports, site installation, 48-hour continuous load test, IQ/OQ/PQ validation documentation, and 5-day operator + maintenance training programme	1	1,20,000.00	1,20,000.00
5	CDX-CORESIGHT-3YR	CoreSight™ Predictive Analytics Subscription — 3 years; cloud dashboard, AI-based bearing wear and capacitor health alerts, monthly automated health reports, SLA: alert-to-acknowledgement ≤ 15 minutes	10	9,500.00	95,000.00
Sub-Total (Ex-Tax)					■ 20,35,000.00
GST @ 18% (CGST 9% + SGST 9%)					■ 3,66,300.00
GRAND TOTAL (All Inclusive)					■ 23,01,300.00

SECTION 2 — DELIVERY COMMITMENT

CoreDrive commits to complete delivery and site commissioning of all 10 CDX-22 drive systems within **35 calendar days** from the date of Purchase Order. This timeline includes: manufacturing (Days 1–20), FAT and pre-dispatch activities (Days 21–27), logistics and delivery (Days 28–32), and site commissioning including 48-hour load test (Days 33–35). This timeline is guaranteed and backed by the LD provisions in Section 5. CoreDrive maintains a finished-goods buffer stock of up to 4 CDX-22 units at its Navi Mumbai facility to mitigate supply chain risks. **No advance payment is required to commence manufacturing.**

SECTION 3 — COMPREHENSIVE WARRANTY PROGRAMME

3.1 **Warranty Duration:** CoreDrive warrants the CDX-22 series equipment for a period of **36 months (3 years)** from the date of successful commissioning as evidenced by the signed Site Acceptance Test (SAT) report. In the event that commissioning is delayed for reasons attributable to the buyer, the warranty period shall nonetheless commence no later than 6 months from the date of delivery. The CoreSight™ subscription (Item 5) carries its own independent 36-month SLA.

3.2 **Coverage:** Comprehensive parts, labour, firmware, and travel (within India). Includes annual calibration of integrated measurement sensors. Excludes damage resulting from: third-party modifications, external overvoltage events (lightning strike with documented evidence), and intentional misuse. CoreDrive will replace DOA units within 48 hours with a pre-configured loan unit at no charge to the buyer.

SECTION 4 — PAYMENT TERMS

CoreDrive offers the following buyer-friendly payment structure, designed to align cash outflows with physical delivery milestones:

Milestone	Trigger	% of Contract	Amount (₹)	Credit Window
Tranche I — On Delivery	Payable upon physical delivery of all 10 units at buyer's site.	60%	₹ 18,80,780.00	Net 15 days from delivery date
Tranche II — Post-Commissioning	Payable upon successful completion of 48-hour load test and SAT.	40%	₹ 5,90,590.00	Net 30 days from SAT date
Tranche III — Retention	Final retention released 12 months from SAT date, confirming satisfactory field performance.	15%	₹ 2,30,130.00	Net 60 days from end of 12-month retention period

Important: No mobilisation advance is required. CoreDrive bears all manufacturing finance costs. Late payment beyond the Net 15 / Net 30 / Net 60 windows shall attract interest at the prevailing RBI Repo Rate plus 100 basis points per annum, calculated on a 365-day basis, non-compounding.

SECTION 5 — LIQUIDATED DAMAGES (SUPPLIER DELAY)

CoreDrive voluntarily accepts an aggressive LD regime as a demonstration of delivery confidence. The LD schedule below shall be the buyer's sole remedy for delay, unless delay exceeds the termination trigger defined herein:

Delay Band	LD Rate	Basis	Equivalent Annual Rate
Day 1 – Day 5 (Zero Grace Period)	₹ 5,000 per calendar day	Fixed daily penalty; does not compound Note: payable in INR only, regardless of any EUR reference pricing	≈ ₹ 18,25,000 annualised (illustrative only)
Day 6 – Day 21	0.5% per week (or part thereof) of the total contract value (₹ 23,01,300)	On total contract value; CoreDrive may also offer substitute units at its own cost	26% per annum; deliberately punitive to incentivise prompt delivery
Day 22 – Day 42	1.0% per week (or part thereof)	On total contract value; CoreDrive may also offer substitute units at its own cost	≈ 52% per annum
Beyond Day 42	Buyer may terminate for cause	CoreDrive liable for return of all payments received plus applicable termination trigger	No further LD applies post-termination trigger
Aggregate LD Cap (pre-termination)	10% of total contract value	₹ 2,30,130.00 — among the highest cap in the industry	Cap applies only; does not limit termination damages

Note on Currency: All pricing and LD calculations are in Indian Rupees (INR). Any references to EUR in CoreDrive's global product datasheets or warranty certificates relate to the European market and are not applicable to this purchase order. INR values take precedence in all disputes.

SECTION 6 — FORCE MAJEURE

6.1 CoreDrive accepts a narrow definition of force majeure. The following events shall qualify as force majeure: (a) Natural disasters (floods, earthquakes above Richter 5.5, cyclones) affecting CoreDrive's Navi Mumbai manufacturing facility directly; (b) National lockdowns imposed by the Government of India; (c) War or armed conflict on Indian territory. The following shall explicitly **NOT** qualify: sub-vendor delays, port congestion, customs clearance delays, semiconductor lead-time changes, and IGBT module import delays. CoreDrive maintains safety stock to mitigate these.

6.2 **Notice Requirement:** CoreDrive shall notify the buyer by registered email and telephone within 6 hours of a force majeure event's occurrence, with documentary evidence submitted within 24 hours. CoreDrive shall also submit a recovery plan within 48 hours. Failure to comply with this notice timeline voids the force majeure claim entirely.

SECTION 7 — LIMITATION OF LIABILITY

7.1 **Standard Cap:** CoreDrive's aggregate liability under this contract is capped at **200% of the total PO value** (i.e., **■ 46,02,600.00** approximately). This enhanced cap reflects the safety-critical nature of the equipment and CoreDrive's confidence in its product.

7.2 **Safety Incident Carve-Out — Expanded Liability:** Notwithstanding clause 7.1, in the event that a failure of the CDX-22 unit, attributable to a manufacturing defect or design fault as determined by an independent NABL-accredited laboratory, directly causes: (i) personal injury requiring hospitalisation, or (ii) a fire or explosion at the buyer's facility resulting in property damage exceeding **■ 10 lakhs**, CoreDrive's liability cap under 7.1 shall be lifted and replaced with CoreDrive's product liability insurance policy limit, which is currently **■ 5 crores** per occurrence (as per policy document available on request). This carve-out is unconditional and cannot be waived by either party.

7.3 Consequential loss exclusion applies in all standard cases, except where the consequential loss arises directly from the safety incident carve-out under 7.2.
